

You Don't Know (AlgomaTrad 2011, music D. Whittle, lyrics EVERYBODY)

(intro) If you've never jammed through the night / If you've never slept in the barn
Never felt the morning sunlight / **You don't know, you don't know**
If you've never tasted poutine / If you never bit a burrito
Never worked in the kitchen / **You don't know, you don't know**

If you've never skipped through the dew / If you've never danced at dusk
Never had your head in the clouds / **You don't know, you don't know**
If you've never sung in French / If you've never slept through breakfast
Never left your mug on some bench / **You don't know, you don't know**

If you never flew high / Were never knocked down / You just got by
If you never knew love / Then you don't know

If you've never enjoyed a cold shower / If you've never looked up at the stars
If you've never sung 'round the fire / **You don't know, you don't know**
If you've never bid on a song / If you've never cheered for the band
Never held little Ruby / **You don't know, you don't know**

If you never flew high / Were never knocked down / You just got by
If you never knew love / Then you don't know

If you've never been drunk on tea / If you've never consumed coffee beans
Never been high on life / **You don't know, you don't know**
If you've never rowed across the sea / Dove into the ocean blue
Travelled in your own country / **You don't know, you don't know**

If you never flew high / Were never knocked down / You just got by
If you never knew love / Then you don't know

If you've never yelled out "Way" (ouais!)
If you've never spun with Clayton (spun with Clayton, yay!)
Never played for a dance / **You don't know, you don't know**
If you never woke up to the pipes / If you've never been to the Camp
Then had to say goodbye / **You don't know, you don't know**

If you never flew high / Were never knocked down / You just got by
If you never knew love / Then you don't know
